## **CLAY CLASS - EMERALD ISLE AND THE TIDES BEYOND**

**BY:**

**CRE8 ART SCHOOL**

Join us for a magical clay-making adventure!

In this fun-filled, immersive clay class, we'll set off on a creative journey to the heart of an imaginary Emerald Isle—a land of rolling green hills, ancient legends, windswept cliffs, and ocean tides teeming with wondrous sea creatures. With step-by-step guidance, students will use a variety of clays to bring this enchanted world to life. From mythical creatures and hidden forest wonders to sparkling treasures from the sea, each creation will reflect the wonder and whimsy of this imaginary world. Come ready to explore, create, and let your imagination drift with the tide.

## STEM ESCAPE RACE!

BY:

### BRAIN CHASE

Join the after-school adventure where science, technology, engineering, and math collide with codebreaking, mysteries, and nonstop fun! Each week, your team will tackle a new digital STEM-themed escape challenge—solving puzzles, cracking codes, and completing hands-on challenges to climb the Leaderboard in a race against neighboring schools.

From dodging meteors on a Moon Base to stopping a museum heist with AI to breaking WWII codes on the Enigma Machine, every mission calls for sharp problem-solving, teamwork, and plenty of laughs along the way. Explore themes like Artificial Intelligence, aviation, oceanography, physics, outer space, engineering, algebra, and more—all designed by Harvard grads and Hollywood filmmakers.

Do you have the STEM skills—and the speed—to escape before the clock runs out?

## **OOEY, GOOEY SCIENCE & ENGINEERING**

**BY:**

**GIZMOS & GADGETS  
KIDS LAB**

Get ready to squish, launch, build, and explode your way through the coolest science and engineering experiments on Earth! In Ooey Gooey Science & Epic Engineering, you won't just learn — you'll create stomp rockets that fly sky-high, make slime that eats Styrofoam, build wild machines, and mix potions that change color right in your hands.

Each week is a brand-new adventure with crazy contraptions, messy experiments, and amazing challenges that will have you saying, "Can we do that again?!"

Every session is completely different, so you can register again and again and know you'll be creating something brand new every single time. From fall to spring, no two weeks are the same — it's a full year of hands-on discovery!

If you like getting messy, solving problems, and making things that fly, glow, bounce, or blast — this is YOUR kind of science.

Let's invent, explode, and explore together.

### LEGO VIDEO CREATION

BY:

**LEVEL UP  
ENRICHMENT**

Is your child crazy about LEGOS? If so, this class is the perfect choice to add something new to their LEGO experience! Over the course of the session, students will write, film, and direct their own LEGO movie using their newly acquired stop motion animation techniques. Our students are challenged to:

- Create Imaginative LEGO Sets
- Learn Basic Stop Motion Filming & Editing Techniques & Tools
- Create Storytelling Movie Scripts
- Create several Stop Motion Videos

While they bring their creations to life in a short film, they will get to share these with friends and family up to two weeks after the completion of the class. The class is run by the experienced and energetic Instructors from Level UP, who will work with students to create films, assist with building, and support social interactions. Creativity is limitless and possibilities are endless, take this class as many times as you'd like!

## MIXED MEDIA CLASS - FANTASTICAL FAIRY TALES AND FABLES COME TO LIFE!

BY:

**CRE8 ART SCHOOL**

Join us for a magical mixed media adventure!

Step into a world of imagination where classic fairy tales, timeless fables, and fresh stories from modern books come to life through art! In this magical mixed media class, students will explore storytelling using a wide range of creative techniques—painting, pastels, collage, sewing, and clay. From sculpting legendary creatures to sewing enchanted scenes and illustrating newer tales, each project celebrates the power of storytelling through vibrant, hands-on art. Perfect for young artists who love stories, creativity, and a touch of magic!

## TGA PICKLEBALL

BY:

TGA OF NORTH  
SAN DIEGO

TGA is excited to introduce Pickleball, the fastest-growing sport in the US! Similar to tennis, this is a fast-paced, ultra-fun, and highly accessible sport for all ages. With classes held right on campus, we teach the fundamentals using real equipment (all provided) and allow students to learn through interactive games, drills, and matches. Students will also explore relevant academic concepts through gameplay while putting into practice life skills such as sportsmanship, integrity, & perseverance. With a low student-to-coach ratio, TGA creates a safe environment & allows for individualized attention.

## POTTERY

BY:

**NEXPLORE**

Nexplore Pottery offers a unique outlet for young artists to sculpt their ideas into one-of-a-kind creations, fostering self-expression and building confidence. Students learn to use their hands and sculpting tools to create pottery staples and imaginative projects like pinch pot monsters, pottery pets, and their favorite characters. As they sculpt and paint, they develop transferable artistic skills such as conceptualizing, sketching, and refining their designs. Manipulating clay helps students understand that they can change something with their own hands and influence the outside world.

### LEGO ROBOTICS

BY:

**SYLVAN LEARNING  
OF ENCINITAS**

Our Sylvan LEGO Robotics program offers fun, hands-on experiences that get the kids excited about the world around them. Students use a LEGO Wedo 2.0 kit and Ipad app to build and code robots. Explore essential science concepts that encourage teamwork, critical thinking skills, and an early love for STEM.

**STEM Learning:** Enhances understanding of science, technology, engineering, and math concepts through practical application.

**Teamwork:** Promotes collaboration and communication as students work together on group projects and challenges.

**Critical Thinking:** Develops problem-solving skills and logical reasoning as students troubleshoot and optimize their robots.

**Future Skills:** Prepares students for future careers in fields like robotics, engineering, and computer science by building a foundation of technical knowledge and creativity.

### EXPRESSIVE ARTS AFTER SCHOOL BY:

**AYA ART CO.**

Our Expressive Arts After School Program offers a dynamic and enriching environment for TK-6th grade students to explore their creativity through a variety of unique creative processes and mixed media materials.

Students engage in hands-on mixed media art projects in a supportive and empowering atmosphere where they can express themselves freely and explore their creative potential.

Throughout our diverse art projects, students learn about

entrepreneurship, creative problem solving, confidence building, mindfulness, multicultural art, art history, and environmental stewardship as they bring intentional and eccentric mixed media works of art to life.

We whole-heartedly believe art has a direct impact on the lives of children in our community. By engaging with the transformative process of expressive arts, our students are empowered with the confidence to create, which becomes a magical tool that extends far beyond the classroom.

## **RUNNING CLUB**

**BY:**

**JUNIOR MAVERICKS  
LLC**

Our after school program is an introduction to running and geared toward students who want to learn the fundamentals of running skills in a fun and social environment.

We teach your students through fun and games to learn proper technique of running.

We run field-based races as well as teaching them to run with a baton.

We teach them to work as a team while running as an individual.

We develop the total athlete through fitness and strength exercises geared towards supporting running in a fun way.

We help develop fitness for students who may need a little encouragement or help with their current sports teams.

We meet athletes where they are physically, relationally and mentally.

We help build confidence and sportsmanship through positive encouragement and fun team-building relay races.

We keep the FUN in teaching your students to run!

## SPANISH ENRICHMENT

BY:

**BELTRAN SPANISH  
TUTORING**

Hola - Hello  
Gracias - Thanks  
Por Favor - Please  
De Nada - You're Welcome

The overall objective of this class is to develop listening and speaking proficiency. One of the most useful language learning tools I use in my program is teaching through songs and music which helps to remove the fear of making mistakes. New concepts/themes will be introduced each week but we will be continuously using and reviewing vocabulary taught to help build a solid foundation.

Students will be provided a folder to take home their class materials, and will be able to practice at home with access to a Padlet I create, where I post activities, games, links to videos and songs we do in class, as well as an online educational program called Rockalingua.

## SOCCER STARS

BY:

### SOCCER STARS

Soccer Stars is our introductory youth soccer program that helps players sharpen their soccer skills in a fun, non-competitive, educational environment. Our philosophy is to use soccer to nurture, build self-confidence, and develop teamwork in every class. This curriculum is designed for younger, introductory players who are ready to start learning more about soccer. Each day focuses on individual footwork, technical development activities, small-sided games, and a small sided game. Our specially designed curriculum provides a perfect opportunity for all players to learn and build soccer skills at their own pace, while having a blast learning about soccer cultures around the World. This age group also spends more time in individual and theme-based games designed to teach players a passion for the game and sports.
